

LA COMUNIDAD ICREA
ICREA ACADÈMIA

The ICREA Acadèmia programme started in 2008 and offers research intensification grants to outstanding university professors who already hold permanent positions in the Catalan research system and are in an expanding phase of their careers. The grant is for five years and is intended to promote the awardees' research by relieving them from teaching duties.

The 14th edition of the programme opened in August 2022. To this date, a total of 399 grants have been given. The list below details the current 176 awardees:
